

# SPRING-CLEAN FOR WILDLIFE

at

## Chessel Bay

### Local Nature Reserve

**Saturday 8th March 2025, 10am-2pm**

Chessel Bay should be an excellent habitat for wildlife, but is often strewn with rubbish - much of which is plastic, brought by the tides.

This is not only unsightly but dangerous for nature.

To help reduce local pollution here - community litter-picks are an important part of the overall efforts towards a cleaner space.

**If you would like to come to help with our 'Spring-Clean' at Chessel Bay, it would greatly improve the habitat for the wildlife which depends on the Nature Reserve.**

So, we hope to see you there.

Help to 'turn the tide' on plastic pollution at Chessel Bay!  
Chessel Bay is situated at the end of Quayside Rd, **S018 1DP**,  
**W3W///areas.backed.boat**

Please come suitably dressed with sturdy footwear.

Under 16s need to be accompanied by a responsible adult.

N.B. Parking is very restricted and there are no toilets on site.

For more information contact Hawthorns Urban Wildlife Centre -  
Tel:- 023 8067 1921 or email [hawthorns@southampton.gov.uk](mailto:hawthorns@southampton.gov.uk)

**RESPECT  
THE  
RIVER**
